SUPPLEMENTAL ACTION

This supplemental action is in response to the improperly dependent claim 3 filed on September 17, 2004. An Examiner's Amendment follows.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Jean Testa on December 13, 2004.

Specifically, claim 3 was improperly dependent upon cancelled claim 2. The amendment to the claim follows.

Amended claim:

3. (Currently Amended) The apparatus of claim 1 [[2]] in which co-location of the first light source (S1) and the second imaging means (M2) and co-location of the second light source (S2) and the first imaging means (M1) provides corresponding angles of incidence and reflection in light transmitted by the respective light sources and received by their associated imaging means, and substantially identical regions of mutual illumination and observation, thereby to eliminate bias and minimize reconstruction errors by the processing means.
